There were many beautifully decorated Christmas trees about town; but two should be especially noted, living spruce trees in the yards of Dr. J. C. Bitler and H K. Spear. They were lighted by electricity, and presented a most pleasing effect.

Hammonton Union League.

The regular monthly meeting of assistance in solution of the following public question which has been merce will be held in Davenport's the subject of considerable discuswhich remains ansolved up to the present day.

Why is our present Town Engineer Remington, who is not a resident nor taxpayer of Hammonton, annually reappointed to the position, when it has been compicuously demonstrated that the alignment of curbing and street grading in many sections of the Town has been so haphazardly and inefficiently performed that it has required in some instances, notably on North Second Street, the complete relocating of an entire block of curbing?

Our assessors call attention to the fact that they are continually hanipered and delayed in their work their inability to get the proper and prompt co-operation of this engineer in matters affecting these

departments of local government. The nume of a local civil engineer, recommended by the government, fully qualified and competent to fill the position, loss been submitted time and again for the approval of our governing body, and yet no favorable action has been recorded. Why? Yes, we

ask why? We, the dear citizems and tax påyers of this town are diggins down in our pockets desper and deeper every year, and paying taxes to maintain a budget that is burdened by the bungling of salaried public officials, and ask, Tiow much longer does a guilible public have to tolerate this state

Thanking you for any assistance rendered us in the solution of this 'perplexing problem,''-t am,

Yours for better government, Lino Rubba, Secretary.

Business hours from 8 A. M. to 6 P. M. weekdays Saturday to 10 P.-M.

We wish you all a Happy New Year and express our appreciation for making it possible for our records to show the biggest Christmas business in our history.

How about that New Year's Resolution?

We call especial attention to a much-discussed article on first page regard to the appointment of Town Engineer. It is a subject that uld receive careful consideration. Don't you wish you were a kid again, with your sled?

People should look carefully after their chimneys, or fires will b ily occurances. The use of wood or soft coul will coat the bricks, and it takes but a stiff breeze to ignite this mass, and the firemen are soon called out. Burn old jar tops, zinc scraps, etc., semi-occasionally, The coal situation in Hammonton is improving some, several care

having arrived the past fortnight. This has been the most unusual year for tax collecting in Hammouton. At last reports, there were over forty thousand dollars uncollected. This condition has made it necessary for the borrowing of money for

the payment of bills. That there were no Christmas tree fires this year speaks well for the telligence of the town's people.

The Assessors invite you to inspect the new assessment book the collector's office. If you are interested, call after Jan. 1st. Saturday's Christmas rush of shoppers was unparalelled in the hisry of Hammonton. The clerks were pretty nearly tired.

Driving Comfort in Winter The Buick "Model 45" Six Cylinder-\$1195

In addition to fitting per-fectly without a gap, the atom curtains on Buick open models are provided with a weather strip or flap which seals the joint so that wide or min cannot that wind or min canno penetrate. Buick oper cars, with the curtains in

As complete as has been the development of the enclosed car, Buick designers have not neglected to improve the open type of car, building into it a measure of comfort, convenience and weather protection surpassed only by the more expensive closed vehicle.

Protection against wind and snow is assured by the snug-fitting atorm curtains that open with the doors. The Buick design of storm curtains with a special weather strip provides a coziness, comparable to that of any closed car, while windshield wiper and tight fitting windshield, adjustable from within, make driving safe and comfortable.

Added to this, and equally important in winter driving, is the splendid performance that a Buick car always produces—its constant and surplus power—its roadability and perfect balance, and its unquestioned dependability.

DO YOUR SAVINGS EQUAL THE AVERAGE?

According to Government reports, one person in every ten in the United States has a savings-bank account, with an average balance of about \$440.00. How much money have you saved? Does your 1

savings-bank balance equal the average? Or are you one of the nine-tenths who have no account—and no money saved?

If you are one of the latter, we invite you to join the 1125 people who are depositing their savings with are here to help you-if you will let us.
